

Controlled Remote Viewing Certificate Course
with Stella Webster and Julie Tasker
Inverness, March 6th -10th 2019

The accelerated CRV training offered by Stella and Julie covers the 6 stages of Controlled Remote Viewing (CRV) in 5 days, and follows the protocols developed by Ingo Swann and documented by Paul Smith.

The usual format is that each day, one or more of the six stages of CRV will be covered.

Each morning includes recap and practice sessions according to your needs. Then, students complete at least one new monitored session whilst practicing the sequential stages of CRV with their tutors.

Stage 6 practice culminates in students producing a 3-dimensional model of their target site. Please note Artistic ability is **not** a requirement!

Training is in small groups with presentations, handouts, examples, demonstrations, exercises and hands-on practice and daily one-to-one coaching.

Venue: 9, Hill Street, Inverness, IV2 3AT

March 6th – 10th (inclusive) 2019 10am until approximately 5pm each day.

The fee of £650 includes refreshments, and all your training materials.

Bring your own lunch, alternatively there are plenty of choices nearby.
